

STONY PLAIN SUN.

VOLUME NINE.

STONY PLAIN.

ALBERTA THURSDAY, JUNE 6, 1929

Whole Number 461

July First, Stony Plain's Sports Day.

A meeting of all those interested in the First of July Sports was held in the Band Hall Monday evening. The meeting was called to order by Mr. Val Kulak, President of the Band. Dr. Outway was then asked to preside. He remarked briefly on the work done in former years, referring to the assistance given the Sports by the late Mr. Lundy. He stated that this year the Sports were to be in charge of the Town Band.

Mr. G. J. Bryan was elected Sec. Treas., with Mr. Willard Storey as Associate. Finance Committee—Hy Miller, A. E. Michael, O. G. Wudel. Sports Committee, J. McCulla, Ph.

Enders, R. Harrison, Roy Alton, F. W. Yenta, J. Becker, J. Malloch.

Dance—The Band Executive, viz.: V. Kulak, Gus Barth, Giles Clarke, Wm. Barth.

Booth Committee—G. Barth, Val Kulak, Ph. Enders.

Central Committee—Hy Miller, J. McCulla, V. Kulak.

The meeting then discussed various plans for the Sports Day. It was felt that it should be made a real Sports Day, with races, games and contests, so that there would be something of interest to everyone.

Mr. Berry then addressed the meeting with reference to holding the Sports at Edmonton Beach. This will be decided on at a meeting to be held next Monday.

Mr Schmidt Leaves Stony.

Mr. Erwin C. Schmidt, who has been a resident of Stony Plain for the past six years, and has been in charge of the local lighting plant since its inception, has accepted a position in Mr. Chas. Gordon's tinshop at Vegreville. Mr. Schmidt will be greatly missed from Stony Plain, he having been active in sporting circles, being a top notch curler and captain of the baseball team. He was also prominent in musical circles, having helped to organize the present Town band, of which he was leader the present season, and also saxophone soloist. The family will remain in Stony until the end of the school term.

Road-Making Demonstration

A demonstration of what a caterpillar tractor and ten ft. grader can do, was given last week on the mile stretch of road from Gilbert's corner south by an Edmonton road-machinery company's experts. Some good work was accomplished, for the edification of a group of Jungs and Spruce Grove councillors. A visiting delegation from Waverly M. D. was present, consisting of Reeve Bert North, Councillor Carl Bergman and Secretary O. Horsfal. This delegation made a 170 mile trip to be present at the demonstration. In the afternoon the machine was taken out to the Baseline, where another successful demonstration was given.

This Is the Weeds.

The Dept. of Agriculture will station 20 field supervisors thruout the province. The men will act in conjunction with M.D.'s and their weed inspectors in an intensive educational campaign directed against further spread of noxious weeds. While vested with authority to enforce the provisions of the Weeds act, an attempt will be made to secure desired results thru education and co-operation with farmers in the districts in which they are stationed. Mr. Bert J. Whitney, Leduc, covers Inga M. D., and has already been in consultation several times with its weeds inspectors. Gordon Short of Evansburg is supervisor for the M.D.'s west of here.

Heinrich's Handicap.

Mr. Henry Trapp has taken over the duties of running the local lighting and power plant. This young gent is a graduate of a Chicago electrical college, beside having had practical experience in installation work with some of the larger power companies. Mike says Heinrich's only handicap seems to be, he don't play no saxophone.

Walther League News.

The regular monthly meeting was held Wed. May 29. A lively discussion took place on the "Lodge Question" conducted by Ph. Enders at the beginning of the meeting. These discussions will be continued every month. It was decided to support the Spruce

Grove Walther League in its endeavor to have the West Edmonton District Rally in their midst this year. Everybody should make it a point to be at this Rally on Sunday June 9. "And Billy Disappeared," which made a big hit in Stony Plain last month, will be given at Kolborn hall, Friday, June 14.

Flying Fingers and Flying Heels

Helen McGregor, of Winnipeg, "The Flying Pianist" whose "flying fingers" earned her unofficial title, and Myrtle Cook, whose flying heels won her the official title of Amateur Lady Champion of the World at the Olympic Meet last year, take a lesson in navigation from Captain Dett of the Canadian Pacific liner "Montrose".

Miss Cook, who now covers women's sports for the Montreal Star is not unfamiliar with the air, having flown the English Channel on several occasions when on the other side at athletic events. Miss McGregor is one of the few women familiar with the controls of trimotored planes. She travelled west as a passenger in the Junkers plane which was landed at Montreal from the Canadian Pacific freighter "Beaverbrae" for the Western Canada Airways, Limited, by whom it will be used in air mail and express service.

Wood is the settler's winter harvest. When his own land is cleared he may still obtain employment in the neighbouring forest. By care with fire, the wise settler protects his own living.

Issued by authority of Honourable Charles Stewart, Minister of the Interior.

The Charter of Anglo-Saxon Liberties

When King John, of England, placed his seal upon that historic document Magna Charta, on June 15, 1215, the date went into history as that of the "greatest of all events in the political development of modern freedom."

Nearly 700 years after the signing of the Great Charter of Liberty, a movement which had its inception in the United States gave birth to the International Magna Charta Day Association, with headquarters at St. Paul, Minn. The main objective of this organization is to have June 15 of each year observed as "Magna Charta Day," or "Inter-Dependence Day," in all the English-speaking nations of the world.

Observance of the day and of the charter which is the common heritage of these English-speaking nations is urged by the Association as an expression of the recognition of the common tie that binds these nations and the common debt they owe to those responsible for the Great Charter which is the foundation of modern ideals of liberty. The Association urges observance of the day also as a means of cementing the friendship and promoting mutual understanding between these nations which, speaking the same language, and having the same ideals, are acknowledged to be the greatest forces extant for permanent world peace. Magna Charta provides that basis of unity which these nations can commemorate. Its signing was an epoch-making incident in their common history concerning which no clash of opinion is possible. One American commentator says: "The yearly observance of Magna Charta Day not only helps to keep vibrant this Anglo-Saxon International Good Will but it serves to set out in sharp relief a wholesome example to the world."

The alternative title, "Inter-Dependence Day" itself is an acknowledgment that American ideals of freedom have the same fundamental basis as those of the British Nations, including Canada, and it is interesting to note that since the Association first was organized, the Day is observed annually in the United States, Canada, Newfoundland, the British Isles, Australia, New Zealand and South Africa. That is, the nations which trace their laws back to the historic document forced upon King John by the Barons of England, join in remembrance of the freedom it has conferred upon all. Says J. W. Hamilton, Founder-Secretary of the Association: "More and more it has become the Inter-Dependence Day of the English-speaking countries, as men have come to understand the Inter-racial kindness its recognition implies."

"The thought is American-born, a gesture of deference to the acknowledged found of freedom, and a tender of goodwill to other English-speaking lands of the earth."

The Day is not observed as a legal holiday, but as one of remembrance. Teachers in the public schools, wherever the Day is observed, emphasize the significance of Magna Charta to their pupils, and explain its significance in the lives of all residents of English-speaking countries. In many places, too, it is supplemented by setting aside the nearest Sunday to June 15, as "Magna Charta Sunday" on which, by pupil reference or Sunday School lesson the goodwill which is the central feature of the observance of the Day is given prominence. It might as well be the basis of a valuable lesson in British ideals for the cosmopolitan people of Canada—and for that reason it is interesting to note that Canada as a nation has endorsed the idea of Magna Charta Day.

Briefly stated, Magna Charta established trial by jury, restrained the Crown from using harsh and arbitrary methods of raising money, virtually placed control of taxation in the hands of the people, gave protection to miners and widows, established uniform weights and measures, limited fines and protected merchants, established the law of evidence, and, generally, assured the rights and freedom of the subject. These are the most important features of that charter which occupies so conspicuous a place in history and which established the supremacy of the law of England as the controlling power over the people.

The 39th article of the charter which is the basis of jury trial, declares "no man shall be taken, or imprisoned, or outlawed, or banished except by the lawful judgment of his peers." Another short article is significant of the desire for justice for all. In it, the King declared: "To no one will we sell, to no one will we refuse or delay, right or justice."

Waterton Lakes Famous For Trout

Excellent fishing may be enjoyed in the National Parks of Canada, especially in the Waterton Lakes Park, Alberta, which is famous for its trout. Specimens of trout weighing as much as fifty pounds have been taken from Waterton Lakes.

Irrigation Cost Runs Into Millions

Construction cost of 10 major irrigation projects now operating in Southern Alberta amount to about \$31,800,000, or an average cost of approximately \$31 per acre for the area or slightly more than one million acres.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville. Half a teaspoonful of Nerville in water makes a most efficient gargle. The germ-killing properties of Nerville quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerville. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerville and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Telephones In Canada

Dominion Is Served By 2,462 Separate Systems

There are 2,462 telephone systems in Canada. Five of these are government owned, Alberta having two, and Ontario, Manitoba and Saskatchewan one each. Municipal systems number 138, of which 123 are in Ontario. There are 496 private company systems, mainly in Ontario and Quebec, and 1,552 co-operative, of which 1,180 are in Saskatchewan. In addition, there are 168 private and 102 partnership systems. The number of telephones installed totalled 1,259,987, when a recent compilation was made, the estimated number of conversations made in one year totalled 2,108,400,000, including 31,400,000 long distance calls.

ST. VITUS DANCE

A Disease Of the Nerves Which Must Be Treated Through the Blood

St. Vitus dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common disease with children, but sometimes attacks adults. The treatment of this trouble is to be successful is through the blood, because rich, red blood is the life food of the nerves. In this way Dr. Williams' Pink Pills have proved beneficial in even the most severe forms of this trouble, because they enrich the blood supply, thus carrying the necessary food to the nerves. In proof of the value of Dr. Williams' Pink Pills in cases of this kind we have the statement of Mrs. William Stead, Warton, Ont., in this way: "My eldest girl, the age of nine years suffered from an attack of whooping cough which left her very weak, and finally developed into a severe attack of St. Vitus dance. She was under a doctor's care, but with no beneficial results. We also tried other treatment, but with no better results. To make matters worse, she was taken down with measles. Again the doctor was called in, as she became so weak, and her limbs so tremble that we had to take her about in a little hand wagon. I thought a change of air and scene might help her, so we sent her to the coast. She was in a distance of about a hundred miles. She seemed to improve while there, but as soon as she returned her strength was gone again. I took her to another doctor, but with no better results. I was distracted to see how helpless she was becoming, so decided to give Dr. Williams' Pink Pills a trial. I got six boxes, and they did what neither doctors nor other remedies had even started to do. They built her up completely; the St. Vitus dance disappeared, she has no sign of weakness and can run and play with the other girls, a thing she could not even try to do for about eighteen months. She walks to and from school, a distance of about a mile, which, of course, is proof of her present good health. I have much to praise Dr. Williams' Pink Pills and always recommend them in all cases of weakness."

You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wheat Acreage

It is estimated that nearly 25,000,000 acres will be sown to wheat in Canada this year. Last year we had 24,144,840 acres sown to wheat, and the total production was 332,571,000 bushels, an average of 22.1 bushels per acre.

Attacked By Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Motion Pictures Of Northern Scenes

Arriving at The Pas, Captain Charles Sutton, pilot and party have completed an 8,000-mile aerial voyage which took them into the northern wilds, far beyond Fort Churchill. Motion pictures of the northern scenes and of the inhabitants, the Eskimos, were taken. This was the main objective of the journey.

Columbia Ice Fields

The melting waters from the Columbia ice-fields in Jasper National Park feed the sources of three of the largest and most historic rivers in the Canadian West—the Athabasca, the Saskatchewan, and the Columbia, which flow into three oceans.

For sunburn—apply Minard's Liniment.

Good Friend To Trappers

Radio Makes Life In Northern Wilds Less Lonely

The trapper's life in the wilds of northern and central British Columbia is not the lonely existence it used to be, for the radio is keeping the isolated cabin homes of these forest nomads closely in touch with the world's activities.

The radio has been a wonderful boon to the Canadian trapper and only the lowliest of them have not equipped themselves with radio sets. Indeed, owing to the distance to be covered and the various technical difficulties to be overcome to obtain satisfactory reception, most of them have bought powerful sets. No longer does the trapper find that nights are made for sleep alone. After following the traplines all day the modern trapper spends the evenings in his cabin smoking his pipe and listening to the news of the day and the orchestra broadcasts from hundreds of miles away.

Uniform Prize Ribbons

Uniformity In Color Is Agreed Upon For Fairs and Exhibitions

The Canadian National Exhibition, Toronto, has informed the Canadian Association of Exhibitions that it is willing to co-operate with the exhibition's suggestions for uniformity of color in prize ribbon awards throughout Canada.

Hereafter at all fairs and exhibitions under the jurisdiction of the association first prize will be denoted by red, second by blue, third by white, fourth by yellow, fifth by green, and sixth by pink. Sweepstakes winners will be awarded the red, white and blue combination and the grand champions red and blue. Much confusion has resulted in past years at fairs and exhibitions by the failure to adopt a standard system of colors with regard to awards.

Settlers For Alberta

Quite a few new settlers from the United States have arrived in the Tilley, Alta., district during the past two weeks and several families have also come into the Brooks area to take up farms in the Rainier district. The details in all cases are being arranged through the Canadian Pacific's Department of Natural Resources.

Excuse Still Good

Office boy—"I'd like a holiday this afternoon, sir. My grandmother is dead, sir."

Boss—"But didn't I give you an afternoon off a month ago because your grandmother was dead?"

Office boy—"Yes, sir—she is still dead, sir."

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

Marble From the North

Northern Manitoba Stone To Be Used On Office Building In Montreal

Native marble, quarried in Northern Manitoba, along the Hudson Bay Railway, may soon replace marble from Italy. "Manville," as the Canadian product is called, is being used extensively in the construction of the new head office building of the Sun Life Assurance Company, Montreal. Shipments were recently sent from The Pas by the Canadian National Railways. The northern marble is of fine texture, hard but not unduly so, and can take a beautiful polish and a sharp arris.

Tennis and Golf

Players everywhere use Minard's to ease sore and tired feet.

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof tissue will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

Right Class Of Immigrants Cannot Fail To Make Good In This Land of Opportunity

The shiploads of immigrants who are now arriving at our Atlantic ports and making their way to various parts of the country will, we have no doubt, with few exceptions turn out to be self-reliant people prepared to make the struggle that average human beings have to make in order to get along. It is to be presumed that they have all heard about Canada as a land of opportunity, and they cannot misunderstand this to mean opportunity for living in idleness. Some of them are intended to stay, and not merely to linger as while as birds of passage on their way to the United States, must intend to do their part as producers of wealth. From time to time there may be need to help individual families to get on a footing of self-maintenance. Neighboring kindreds from people already settled and thriving here is to be taken for granted. It is worth far more than any excessive paternalism on the part of the state.

Some organization in this country and some persons who set themselves up as class spokesmen make a great show of uneasiness about the increasing of the country's population by immigration. Labor leaders fear that we shall have more town dwellers than we can find work for. Agitators in the agricultural regions profess to be alarmed over the increase of tillers of the soil, who would add to the output of farm products and bring the price of these products down. These woeful ones worry more than the willing and enterprising workers who arrive as immigrants. If the newcomers are industrious and add to the country's total output they also add to the country's total consumption. Efficient producers are efficient consumers. If they increase the produce that is to be marketed they also increase the capacity of the home market. Worthy immigrants cannot be long in this country without very greatly increasing their buying power. They will live better than they lived overseas because they can afford to do so. A hundred thousand new-comers of the right stamp will in a few years be worth far more to Canada as consumers of her products than they were as importers of Canadian products in the countries whence they came.

Canada has no fault to find with her own people. She cannot have too many of the same kind. We hope the native-born Canadians will go on increasing in number. Men and women of the stock that settled this country are needed to recruit its population and become the fathers and mothers of native-born Canadians. Then let us welcome with open arms all of the right kind who come from the British Isles and from the preferred countries of the continent of Europe. The coming of such people will assist in giving a further impulse to the progress of this country. Toronto Mail and Empire.

Source Of Gold

The chief source of the gold produced in Canada is the gold-bearing quartz deposits of the Porcupine and Kirkland Lake districts in Ontario, which are responsible for more than 85 per cent of the output.

"The wretch pretends not to know me, and yet he has to thank me for his divorce."—Brunner, Berlin.

W. N. U. 1788

Very Young At Forty

Italy Thinks Man Just Starting At That Age

France Gatta, young Italian electrical engineer, who was at the Hotel Pennsylvania, New York, from Milan, says the young man in America has more opportunity than the young man of Italy.

"We never have any thirty-year-old men teaching in our universities," he said. "A man is thought to be very young at forty, and is just getting his start. It takes us longer to finish our education and we are not given important positions until we have worked for many years with a firm."

479

PRACTICALITY AND CHIC

A printed silk crepe whose wearability makes it an economical choice for Spring wardrobe. Its lines are slender and straight, so becoming with lightweight woolen or silk crepe top coat. The neckline is smart and comfortable for all-around wear, with rever collar and scarf tie of plain harmonizing silk crepe. The box-plaits across front of skirt are youthful fashion. Style No. 479 can be had in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust, and is made with 3 yards of 40-inch material with 3/4 yard of 36-inch contrasting in the 36-inch size. It is an excellent model for tennis made with short sleeves, or sleeveless of printed pique, striped washable rayon silk, flat silk crepe or linen. Printed cotton foulard, georgette crepe, and featherweight woolen fabrics are also suitable. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles and cute designs for the kiddies.

Buying More Wheat Flour

Increase In Sales From Canada To Northern Europe

Canada is increasing sales of wheat flour in Northern Europe, despite tariff barriers in many cases. This statement is contained in a report to the department of trade and commerce by M. B. Palmer, acting trade commissioner in Hamburg.

Sales to Germany, Austria and the Baltic States, Scandinavia and other countries in the area amounted to 2,624,012 barrels of flour valued at \$15,865,597 in 1928 as compared with 2,122,980 barrels valued at \$13,972,653 in 1927. Germany imported 14,918,625 bushels of wheat from Canada in 1928; 2,108,299 bushels of rye; 4,788,925 bushels of barley, and 946,226 bushels of oats. These total nearly \$27,000,000 or 51 1/2 per cent of the total value of Canadian exports to that country.

Czecho-Slovakia, Denmark and Scandinavia are also heavy buyers of Canadian grains. Germany buys large quantities of packing house products from Canada, notably sausage casings to the amount of 1,376,760 pounds valued at \$28,601 in 1928. Other commodities of great importance in Canada's exports to Germany include dairy products, honey, canned goods, fresh and dried fruits, fish and fish meal, seeds, crude drugs, whiskey and faxes.

Canadian Geese In

B.C. Bird Sanctuary

Number Has Increased Rapidly In Last Six Years

Very rapid increase has taken place in the number of Canada geese in the Vaseux Lake Bird Sanctuary, British Columbia, since this area was set aside for this purpose in 1923. In one part of the reserve, an island in the lake where only three geese nested in 1919, thirty-five nests were counted in 1928. Throughout the whole sanctuary the number of nests counted in the latter year was fifty-five, whereas in 1923 the number of incubating birds was very small indeed. During last summer over four hundred geese were counted at one time.

Miss Pasmarter: I hear you have a model husband. Is he a late model? Mrs. Junebride: The very latest. From 12 to 2 a.m. every night.

The Interesting Story Of A Remarkable Achievement In Canadian Railway Construction

Snow Survey In Foothills

Valuable Information Is Secured In Regard To Water Supply For Southern Alberta

For the last six years, the Dominion Water Power and Reclamation Service, Department of the Interior, in co-operation with the United States Geological Survey, has annually conducted a survey of the snow conditions on the headwaters of the St. Mary River in Montana. The discharge from St. Mary River is of vital interest to the large irrigation projects in Montana and southern Alberta and to operate the irrigation facilities of these projects at the highest degree of efficiency, some advance information as to the available water supply is essential. While this survey may still be regarded as in the experimental stage due to the limited number of years of existence, some remarkable results have already been obtained. It is now established that a direct relationship exists between the depth of snow found early in May and the total runoff from the area during the following three months.

British Capital Wanted

"Canada welcomes American capital, a many other capital, observes the Ottawa Journal, and will always treat it fairly; but next to control of Canadian enterprises by Canadians the best thing that can happen is to keep control of what we have within the British family. That is one kind of Empire preference about which there should be unanimity."

Why Latitude Varies

According to a new theory of Dr. H. A. T. Stetson of Harvard, the moon not only causes tides in water but on the crust itself of the earth. This is tendered as an explanation of the variations in latitude when it is measured from the Equator.

Roman Matron: "Cornelia, run over to Horatius and tell him I'd love to have him make a fourth at bridge."

A TEASER

No. 9, Cleopatra—215 yards, Par 3.

The ninth hole of the Jasper Park Lodge Golf Course, Jasper National Park, Alberta, over which the amateur championship of the Royal Canadian Golf Association will be played August 10-24 this summer, is one of the trickiest in Canada. The championship tee (No. 1) is considerably elevated and the green, which is very fast, is also built up high. The trick, therefore, is to play a tee shot which will hold the green. Yawning traps surround the green to eat up the strokes of the golfer who fails to play this hole properly. Like its famous namesake, "Cleopatra" is likely to wreck a lot of reputations at Jasper in August.

Co-incident with the Canadian Amateur, the Western Canada Amateur will be played over the Jasper Park Lodge Course, and this will provide plenty of competition for those whose high handicaps automatically keep them out of the Dominion event.

The upper photograph was made from No. 1 tee. Below it is a plan to scale showing the hole in detail with the three tees plainly indicated. The figures below represent the yardages.

Hudson Bay is now on the railway map of the Dominion. This is the arresting opening of an article in the May issue of "Natural Resources, Canada," the monthly review of current events published by the Dominion Department of the Interior. The arrival of steel at Churchill, the Bay terminal, on March 30, last, had of course been duly chronicled, but required more than brief news mention to enable Canadians generally to realize just what the announcement signified and what rendered the event important and memorable. "Natural Resources" declares that by thinking that historic body of water with the outer world of steel, yet another epic has been added to the glorious saga of Canadian achievement. The speedy laying of the track, according to this authority, constitutes in truth the accomplishment of what many people had deemed to be impossible. Certainly, it proceeds, no other main line for exactly like the Hudson Bay Railway, stretching northward across Manitoba from The Pas to Churchill, and no other railway has been built under similar weather conditions.

Not only was the undertaking on the one hand a never-ending fight against the elements and the physical obstructions of a treacherous terrain, but, on the other, a grim race against time, calling for bold and urgent expedients on the part of the engineers. Had the last rail not been in place before the frost broke, the consequent delay would have proved very serious. Steel, however, reached the terminus on March 29, permitting more than 300 carloads of material to be taken in and made available for the development of the port. This prevented loss of valuable time, unavoidable otherwise because of the interruption due to the spring break-up. Apart, too, from the personal hardships entailed on the workers, the undertaking had more than its normal share of seemingly insuperable difficulties. Much of the land was muskeg, and right here the talent of the Canadian engineer came in, for he utilized the aid of the frost in carrying his work forward without delay over time-consuming obstructions. When cold weather came, grading work was abandoned until the spring and the tracks were laid on ties on the frozen ground, as in the building of the Flin-Flon railway.

With the advent of spring, the grading gangs took up their interrupted work of ballasting the temporary track, one gang working up from the south, while at the same time another party began working its way southward from Churchill. Somewhere along the track the parties will meet, most likely early next August, when the golden-spike will be driven, by Right Honorable George F. Graham, who as Minister of Railways and Canals, turned at The Pas, Manitoba, the first sod in the construction of the railway. Thus the finishing touch will be put on an undertaking in railway engineering that has won the admiration of the world. Owing, however, to the large amount of work to be done on the port facilities, engineers expect that the first shipments of grain will not be made until the season of 1930. The work at Churchill will proceed on an accelerated plan, inasmuch as there will be no demand for labor which has not been foreseen and provided for.

Lady (used to bargaining): "How much is the fare to Slesho?" Clerk: "Seven and a halfpence return."

Lady: "Make it seven shillings and I will go." — Soundgumme-Strix, Stockholm.

WORLD HAPPENINGS BRIEFLY TOLD

Plutarco Calles, former president and minister of war for Mexico during the recent revolt, has retired from politics.

Veterinarians of Manitoba will hold their semi-annual meeting in Brandon, July 5, during the week of the summer exhibition.

It is estimated that 22,000,000 acres will be sown to wheat in Canada this year, or 1,000,000 acres more than a year ago.

The Dominion treasury has \$78,231,160 in gold in the central gold reserves, while according to last bank statement the banks of Canada hold in their own vaults in Canada an additional \$40,000,000 in gold.

A flight by Russian aviators from Moscow to New York by way of Alaska this August is being planned by the Soviet aviation commission. The plane, called the "Land of the Soviets," will be manned by four men.

MADE HER BABY PLUMP AND WELL

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zepherin Lavore, Three Rivers, Que., writes: "Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthy sleep. They are given to mothers to be free from injurious drugs and are safe even for the youngest, and most delicate child. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Visitor: Well, Tommy, and how do you like school?
Tommy: Not much. You see, I'm not very fond of children.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callous comes out without injury to the flesh.

She (in car): "Don't tell me the car is 'out of gas'!"
He: "All right, then, the gas is out of the car."

GAINING WEIGHT

Just a trifling dose of Phillips' Milk of Magnesia is better. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

Prominent Agriculturists to Meet

Canadian Wide Gatherings of Seed Growers and Scientists At Winnipeg

(By E. Cora Hind)

June 8 to 15 are to be important days for agriculturists and livestock in Canada for during those eight days the year's work and findings of the Plains Breeders of Canada, the Canadian Seed Growers, the Canadian Technical Agriculturists, and the Western Canadian Society Animal Production, will all be discussed and action taken on such important subjects as the standardization of names of seeds of vegetables and flowers for registration and appraisal and determine the extent to which the Seed Growers Association might go in encouraging the production of field root, vegetable, garden and forage crops suitable for registration. Special interest will centre on the question of the registration of Alfalfa and other cross fertilizing crops.

From the cereal breeding committee will come a report which will be the basis of a discussion on the desirability of retaining generation numbers and special attention will be given to whether or not "number three registered" should be eliminated. It is expected that a declaration will be arrived at to the "proper type of Marquis wheat required for registration."

The Canadian Seed Growers will have only two addresses from their own members. President H. G. B. Strange, will deal with the wheat generally, and Prof. T. J. Harrison, will speak on his recent trip to Europe, and the types of barley required for the British market.

The Animal Production men are bringing two world famous men whose addresses will be shared by all the organizers. These are Dr. A. E. Crew, Ph.D., D. Sc., professor of animal genetics, University of Edinburgh; and Dr. W. Williams, Professor Emeritus of Veterinary Surgery, Cornell University. The animal production section will also have as a special speaker, Dr. Alfred Savage, B.S.A., B.V.M., Animal Pathologist of the Manitoba Agricultural College, who has been working in collaboration with Dr. Williams. The Canadian Technical Agriculturists are bringing Dr. H. B. Humphrey, Pathologist in Cereals, Rust Rusts and Insects, of the United States Department of Agriculture; Dr. W. E. Grimes, head of the department of agricultural Economics, Kansas Agricultural College; and Dr. M. J. Dorsey, Chief of Entomology at Agricultural Station, Urbana, Ill. It is doubtful if these gatherings have ever been graced by a more renowned group of specialists.

The Provincial Government of Manitoba and some of the important business bodies of Winnipeg are showing their appreciation of the importance of the gatherings by offering luncheons and dinners.

Monday night, June 10, the Provincial Department of Agriculture will give a dinner in the H. B. Co. store, when the Minister will preside and Premier Bracken will be the speaker; Tuesday, noon, the Seed Growers will be the guests of the Canadian Wheat Pool; Tuesday night, the guests of the Dominion Experimental Farm, at Morden, super there and a return to the city by midnight. It is hoped that a number of wives will come with their husbands to these meetings, and special entertainment is being provided for them.

The Province of Manitoba and the City of Winnipeg feel deeply honored at the opportunity afforded of entertaining such important bodies, and hopes to give them a profitable and very happy time during their stay.

"Are you off on pleasure bent?"
"Worse—I'm off on pleasure broke."

Canada's First Passenger Train

Left Toronto Station On May Sixteenth, 1853

Seventy-six years ago on May 16th, at 8 o'clock in the morning, the first passenger railway train to run in Canada, pulled out of the old station nearly opposite the Queen's hotel on Front street, Toronto, and made its initial trip to Aurora, Ontario. Up to that time the only form of transportation was the old horse-drawn stage coach and the carrier's wagon. The train consisted of a 2-ton engine with 5-foot driving wheels and a 14x20 cylinder, a box car and a passenger car. Alderman John Harvie was the conductor, and passengers had to purchase their tickets from him on the train. The fare was \$1 each way. The journey occupied two hours. The engine drawing the train was named "Lady Elgin" after the wife of the governor-general.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

Foundation of the Farming Industry

Cow Serves Mankind In More Ways Than Any Other Animal

The cow really forms the foundation of the farming industry. Not only does she supply the world with all the milk products, such as butter, cheese, milk, and cream, but almost all her flesh can be eaten, and beef is the staple meat of most countries. Her hide is used for making leather, and her hair for mixing with plaster. Gelatin is made from her hoofs, and gelatin powder from her joints. When everything else is removed her bones are ground into fertilizer in so many ways.

The Old For the Athlete.—In rubbing down the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

Will Trek To Alberta

Another of the Hutterische Bruder Gemeindegeloesen, organized near Freeman, South Dakota, by Russian immigrants about 20 years ago, will leave South Dakota when the Wolf Creek group, numbering about 150, treks to Alberta. An option on their property, comprising 5,400 acres of improved land, has been obtained by A. W. Harper, Minneapolis banker, who plans to dispose of it in tracts of 160 acres each.

How To Measure Height

To measure a tree, set a stick straight up in the ground. Use a plumb line to get it absolutely perpendicular. Measure the shadow it casts, and the shadow cast by the tree. As the shadow of the stick is to the length of the stick, so is the shadow of the tree to its height. Figure it out.

The Penitentiary (proposing): "Darling, I love you. Will you be my widow?"

Use Minard's for the rub down.

SUNDAY SCHOOL LESSON

JUNE 9

THE STORY OF THE RECHABITES

Golden Text: "We will drink no wine," Jeremiah 35:5.
Lesson: Jeremiah 35:1-19.
Devotional Reading: Psalm 107:1-9.

Explanations and Comments

Jeremiah's Test Of The Rechabites, verses 1-5.—"Among the people who crawled into Jerusalem to escape the dreaded Nebuchadnezzar, was a tribe that excited much curiosity because of its strange manners. The sheik's name was Jasseanish—he whom Jehovah hears. They refused to shelter in the houses or permanent buildings, but pitched their dusky tents in an open space within the city walls. Their record was honorable, and reached far back into the early days of Hebrew history. From the wilderness march of the Exodus the Kenites kept up friendly relations with Israel during the intervening centuries, and it was of them that the Rechabites had sprung (Judges 4:17-24; Sam. 15:6; 1 Chron. 2:55.) About the time of Elijah, and perhaps through his influence, the leader of one branch of the tribe was Jonabab, the son of Rechab. He was dismayed at the surrounding confusion of the Northern Kingdom, then under the fatal spell of Jezebel and Ahab. In his endeavor to save his people from a fate, this man, afterwards Jehu's confederate in the extirpation of the Baal-worshipers, found his people under a solemn pledge to drink no wine for ever, and not to build houses, to need, to plant vineyards, but to dwell in tents."—P. B. Moore.

These Rechabites and their staunch adherence to the principles laid down by the ancients afforded Jeremiah an excellent opportunity for an object lesson. Accordingly, he led them into one of the rooms ranged around the temple courts and bowls full of wine set before them, using the large vessels from which the wine was usually poured into cups. "Drink ye now," Jeremiah bade them. It was a severe test of their principles, for it was the prophet himself who bade them drink.

count life just a stuff
To try the soul's strength on.—
—Browning.

"On the shore of almost any lake you can find an allegory of human life. Farthest back from the life where the great opposing forces meet is the sand, tossed there because it is light. Then come the pebbles, which yield less readily. And finally, at the forefront, the solid rock that the waters can neither break nor move."

Sore Corns Drop Off If You Use "Putnam's"

When you notice any sign of callos on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Just as it is light, the corns, Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It was the work—and root out the corn, quickly and without pain.

Sunspots and Rabbits

The number of pellets received by the Hudson's Bay Company from year to year since about 1840 showed marked periodic variation. According to an investigation made at the Dominion Observatory, Ottawa, the number of rabbit pellets was, on the average, three times greater one year before the minimum of sunspots than at the maximum.

Little girl to uncle, whose voluble wife has just stopped talking to take breath: "Now, Uncle Henry, you say something."

Keep Minard's in the Medicine chest.

"Daddy, can you tell me if Noah had a wife?"
"Certainly—Joan of Arc. Don't ask silly questions."

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known to a household no other will be used. The medicine acts by itself, requiring no cathartic to assist it, and so thoroughly that nothing more is desired.

He: "Wouldn't you tire of seeing me at breakfast every day?"
She: "Oh, yes, but I don't get up for breakfast."

Minard's Liniment for sick animals.

Big Man: "My time is worth \$50 an hour, but I'll give you a minute."

Reporter: "In cash, sir?"

Extra 4 MILES
IN GUM-DIPPED TIRES

GUM-DIPPING which saturates every fibre and every strand of every cord with pure rubber, serves the same purpose as that of a cobbler waxing his thread . . . prevents friction and multiplies strength.

This extra strength multiplies mileage, and increased mileage with no increase in price means lower cost per mile. That's why Firestone Tires give

Conditions Better In Great Britain

Great Improvement Shown In Basic Industries

"Conditions in Great Britain are materially better than they have been since the strike and there has been a great improvement in the basic industries," said P. A. Clews, European Traffic Manager of the Canadian National Railways, who has come to Canada from London on a short business trip. "There has been a marked revival in the coal trade," he said, "and the severe weather which reigned all over Europe last winter helped the British producers to regain some of their lost markets."

Last year, Mr. Clews said, the Canadian National Railways dealt with the largest freight traffic in Europe in their history. "The tourist movement to Canada is increasing astonishingly," he added. "The people in Europe are becoming more and more interested in the possibilities of spending a holiday in the Rocky Mountains, particularly in such places as Jasper National Park, which appeals greatly to their imagination."

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Forest Products Rank High

Forest products in Canada rank second to those of agriculture with an annual value of approximately \$500,000,000.

Going Upstairs Had to Sit Down Breathe So Short

Mrs. H. Brousseau, Magog, Que., writes: "For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

MILBURN'S HEART NERVE PILLS

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

AGREEMENT IS REACHED ON REPARATIONS

Paris.—The German experts and their creditors came to an agreement on revised reparation annuities as proposed by Chairman Owen D. Young.

These annuities average 2,000,000,000 gold marks (about \$492,000,000) for thirty-seven years; 1,700,000,000 marks (\$408,000,000) for twenty-one years, and 900,000,000 marks (216,000,000) for the final year.

Under the agreement as concluded, these annuities will run from September next, instead of from April 1 last, as originally calculated. The Dawes plan of payments will meanwhile continue in force.

The situation was explained by Thos. W. Lamont, United States representative, as follows:

"Both creditor and German experts have heretofore declared themselves willing to accept the annuity figure of 2,500,000,000 marks as suggested by the chairman, although a difference existed on the question of interpretation.

"This difference has now been removed and a common basis for interpretation acceptable to both the creditors and to Germany has been found, subject, however, to agreement on the outstanding conditions which still remain for discussion and settlement."

It was further explained this agreement was not one's victory, for both Germans and creditors gave way to make it possible.

The general opinion of the experts was that a most important step had been taken toward final elimination of the Great War. There was no disposition to cry victory because there remained a number of knotty points among German conditions and allied reservations, any one of which if not satisfactorily disposed of might make final agreement impossible.

Grain Buyers Organize

Will Function Along Lines Recommended By Grain Enquiry

Saskatoon, Sask.—Grain buyers of Western Canada have an organization under formation which will be known as the Grain Buyers' Service Bureau, it was announced here. It will be managed by an executive committee consisting of a number of active buyers in the West. The organization will function along the lines recommended by the Royal Grain Enquiry during the sittings in Saskatchewan last winter and is aimed to raise the standard of grain buyers considerably during the next few years.

An employment bureau will be handled in connection with the organization to assist its members in securing employment. At present the organization has a large membership in Northern Saskatchewan, and by fall a 100 per cent. membership in Western Canada is expected. Further particulars of the body are under preparation and are expected to be completed within a few days.

Want Chair Of Music

Saskatoon.—A discussion regarding the desirability of a chair of music at the various provincial universities, was an outstanding item at the Inter-Provincial Musical Festival Conference, held here. The Conference, which was attended by officers and delegates from the associations of the four western provinces, expressed the hope that the authorities concerned would take early action.

Y.W.C.A. Convention

Toronto.—Many eastern delegates will attend the National Young Women's Christian Association convention at Banff, Alta., June 4 to 10. Many delegates will go from Montreal and Toronto.

Fire Destroys Lumber Mill

New Westminster, B.C.—Fire of unknown origin destroyed the planing mill plant of the Brunette Lumber Company at Sapperton, near here, with an estimated loss of \$100,000.

W. N. U. 1788

Amended Bill Is Passed By Committee

Would Make Divorce Much Easier For Deserted Wives

Ottawa.—An amendment to the bill respecting the domicile of married women, although opposed by a large section of the house, passed when Parliament went into committee to consider the bill. The amendment makes it possible for a woman, deserted by her husband and left living alone for two years, to establish her domicile in any province of Canada where a divorce court exists for the purpose of obtaining divorce.

The bill, as amended, passed the committee stage and now stands for third reading. The amendment was passed by a vote of 26 to 28.

During the debate, Hon. Ernest Lapointe, minister of justice, declared that conditions in Canada would be worse than in Reno if the bill as amended became law. In Reno, a person desiring to obtain a divorce was required to wait three months before taking proceedings. Under the bill before the house, such persons could go to a province where a divorce court existed and begin proceedings immediately.

Hon. R. B. Bennett, Conservative leader, pointed out that a woman wishing to obtain a divorce must establish her domicile to the satisfaction of the court.

Working For World Peace

Saskatchewan Will Hold Provincial Conference On June 28, At Saskatoon

Saskatoon.—With a dominion peace conference as objective, provincial conferences are being organized, Saskatchewan joining in the movement by arranging a gathering at the University of Saskatchewan, on June 28. This was decided at a meeting called by Mrs. H. Johnston, president of the United Farm Women of Saskatchewan, and attended by representatives from all organizations in the province working for world peace. The date was chosen to accommodate the large number who will be in Saskatoon for rural women's conventions covering not only the province but the whole of the Dominion, represented in the Women's Institutes.

Saskatchewan Men

In Marathon Swim

Two Have Entered Names In Fourth Wrigley Event

Saskatoon, Sask.—Saskatoon will be entered in the fourth Wrigley swim marathon to be held in connection with the Toronto exhibition, on August 28. Saskatchewan's entry in this world-famous event will be Jack Smyth, of 211 Sixth Street, who has already forwarded his entry to the officials at Toronto. Prince Albert will be represented in the same event by H. Houghton, Smyth and Houghton will train at Prince Albert National Park. They intend establishing training quarters there at once.

Casualty List Heavy

Manila.—The death toll in the typhoon in Southern Leyte province was reported at 112 as communication with that section was re-established. First reports of the storm received here gave the number of deaths as ten. Some of the towns in the typhoon area still were isolated when the casualty list was completed.

Will Remain In Force

Victoria.—British Columbia's tax on non-royalty paying exported logs, declared ultra vires by Chief Justice Aulay Morrison, of the Supreme Court, will remain in force until the judgment has been appealed by the provincial government as a result of arrangements reached, between the province and the Dominion government, it was announced.

Board Of Conciliation

Ottawa.—A board of conciliation under the Industrial Disputes Investigation Act has been established by Hon. Pat. O'Brien, minister of labor, to deal with a dispute between the Canadian National Railways and its firemen and engineers, members of the Brotherhood of Locomotive Firemen and Engineers.

WILL PILOT GIANT DIRIGIBLE

Major G. H. Scott, chosen by the British government to pilot the R-100 on its maiden voyage to Canada.

A Reciprocal Visit

Australians Invite Canadian Boys To Make Return Tour

Victoria.—"We are leaving Canada with the hope that a reciprocal visit to Australia will be arranged for Canadian boys," Major John J. Simons, leader of the Young Australia League, stated prior to embarking on the liner "Aorangi" homeward bound.

"We have had a wonderful tour, and its success has greatly exceeded our expectations," he added.

The aim of the League in fostering these tours, Major Simons said, was to create better understanding between the English-speaking peoples of the world, and in this, he thought, the League had been in a large measure successful.

Salmon Treaty Approved

Committee Evenly Divided And Chairman Voted In Favor

Ottawa.—On the casting vote of the chairman, William Duff, Liberal, Antigonish-Guyabere, of the marine and fisheries committee of the House of Commons approved the Canada-United States sole sale of salmon fisheries treaty. The convention was signed at Washington on March 27 last.

When the division was called, ten members of the committee voted against the pact and ten in favor, with the vote a tie. Mr. Duff, as chairman, then voted for the treaty.

Sewer Gas Explosion Causes Much Damage

One Person Believed Fatally Injured When Blast Rocks Ottawa

Ottawa.—Explosions of sewer gas in four parts of the city caused probably fatal injuries to one and hurt a number of others, at the same time destroying considerable property where the blasts were most severe.

There was panic in several sections when the booming of the explosions, accompanied by leaping pillars of flame and water, shook dwellings and rattled the windows of commercial and office buildings. Women and children ran screaming from their homes.

In the streets, man-hole covers were thrown into the air a height of 50 or 60 feet. Confusion reigned. Fire alarms brought apparatus to scout fires and patrol where there was likelihood of any outbreak.

St. Martin's Reformed Episcopal Church, built in 1876, and a landmark in the Sandy Hill district, was churned into wreckage as though it had been blasted by high explosives. Several stores in its vicinity were also destroyed, but persons in these latter buildings were not badly hurt.

Capital Invested In Canada

Canadians Own Over Half Of Securities In Dominion

Ottawa.—Canadians own from 55 per cent. to 65 per cent. of the securities of all enterprises located on Canadian soil. British investment in Canada at the beginning of 1928 was two-thirds that of United States investments in this country, or \$2,209,317,000, as compared with \$3,286,760,000.

The total British and foreign investment in Canada at the time noted amounted to \$5,742,043,000, the balance of \$345,740,000 coming from alien countries other than the United States.

Rebels Kill Ambassador

Constantinople.—Authoritative information has reached Ankara from Afghanistan, stating that Afghan rebels captured and killed Gublan Djelani Bey, Afghan ambassador to Turkey who was recalled by former King Amanullah to aid in the fight against the rebels. The report said that Gublan was tortured to death.

Estimates Approved

Ottawa.—After a somewhat tempestuous passage, all estimates of the department of immigration have been finally approved by the supply committee of the House of Commons.

The Bull Dog Breed

Feet squarely planted on the deck of a Canada-bound liner, this young Britisher roughly shrugs a left shoulder at the photographer. Member of an agricultural family coming forward under the auspices of the Department of Colonization and Development, Canadian Pacific Railway, he looks forward to a romping, healthy life in Canada—thanks to the Askew scheme.

APPEAL IN TAX CASE IS WON BY WHEAT POOL

Ottawa.—Judgment was given by the exchequer court in favor of the Saskatchewan Wheat Producers, Limited, in their appeal from the assessments in the years 1925 and 1926, by the minister of national revenue, at \$104,143 and \$302,489 respectively.

These amounts represented deductions set aside for elevator and commercial reserves, and for operating expenses.

Mr. Justice Audette held that the deductions were merely temporary loans made by the farmers in the pool and were not gains or profits within the meaning of the act.

The judgment says in part:

"The deductions are so much less of the price, the proceeds of the farmer's grain, which he leaves, by agreement, in the hands of such associations for the purposes of handling his grain to his best advantage."

"Under all circumstances of the case, I find that the deductions in question are but temporary loans and advances made by the farmer, out of the price of his grain, to the pool capital for carrying on and acquiring elevators—the value thereof being credited to him as his own, having been his own all through under the true meaning of the provincial act and the contract made thereunder, and that the association acting in such fiduciary capacity for the grain growers, accounts for every cent it receives, and retains nothing that amounts to gain or profit."

Slaughter Of Tribesmen

2,600 Arabs Reported To Have Been Slain In Tribal Fight

London.—A Jerusalem dispatch to the Express says desert runners brought to Beyrouth word that 2,600 Arabs were slain at Elisar, Nejd, in a battle between Ajmann and Jela-wah tribes.

The fight was attributed to a breach of desert hospitality.

The sheik of Ajmann visited and was entertained by the sheik of Jela-wah, but no sooner had he left the tent of his host than he was attacked.

The Ajmann tribesmen promptly retaliated and in the following conflicts both the chiefs and a thousand tribesmen on each side were reported to have been killed.

Speeding Up Construction

Saskatoon, Sask.—Every effort will be made to have the Melfort-Aberdeen branch of the Canadian National Railways completed this fall. W. A. Kingsland, general manager of Western Lines, said when he passed through the city on his way to Rosetown. He stated grain would be hauled over the line this year even if it were necessary to use skeleton tracks for small distances.

To Cross Continent In Buggy

Stockbridge, Mass.—Russell Beckwith has no use for automobiles, so he will set out on a trip with a horse and buggy that will eventually take him to British Columbia. Mr. Beckwith has leased his farm here and leaves to visit a brother in Connecticut. He also will go to Pennsylvania for a visit before heading for British Columbia.

Five Italian Filers Killed

Rome.—The crew of five of a military bombing plane were killed when it crashed into Mount Orsorio near Corniglio, while on a night flight. The dead were two lieutenants, two under-officers, and a soldier mechanic. A sudden violent storm had come up while they were flying over the Apennine mountains.

Unemployed In Britain

London.—The number of unemployed in Great Britain on May 13 totalled 1,104,700 persons, a decrease of 28,005 under the previous week, it was officially announced here. The number was also 13,690 below the unemployment figures of May 13, 1923.

The Desert Song

—BY—

VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.

"The Desert Song" is a Warner Bros. production of a play by Otto Harbach, Lawrence Schwab, George Harnsworth, and Frank Mandel.

CHAPTER II.—Continued

Old Hassi nodded. He remembered the night well, remembered the marked figure who had stepped into their camp and shouted defiantly, "Give me twenty of your young men who are not afraid to die! And if the law is wrong, we'll overturn the law!"

"It was only a boy indeed," continued the Red Shadow, "but I dreamed of saving the people of Morocco from injustice. When I returned to Fex, they forced me to resign from the army. I acted as if that blow had made me stupid, almost half-witted. I spent all my time picking wild flowers and so they searched high and low for the Red Shadow, never suspecting that he was the stupid, timid boy living right in their midst."

Then complications had arisen. General Fontaine died and the Red Shadow's own father, General Birabeau, was sent out from France to command the post at Fex. He had come with one purpose uppermost in his mind—to wipe out the Red Shadow. How was his son, Pierre, to meet this situation? Could he betray the people he had learned to love? He could not. And yet it was no less difficult to keep his parent from suspecting that his boy was an enemy of the French.

"So I continued to play the fool," he went on, "and I succeeded in deceiving my father. Now because he thinks I am a weakling he hates me. That is bad enough, but to see Margot despise me too! Why, I came to Morocco to show Margot I was a man!"

Back among the tents there came a scurry of excitement. A volley of guttural oaths filled the night as a dozen of the Red Shadow's men dragged in a prisoner caught by the sentry. He was thrown unceremoniously in front of the fire—five feet of insignificance dressed in bulging riding breeches fashioned out of enormous checks. It was hard to say which was the most ludicrous, his outlandish clothes, his moustache on his tiny face, pale with consternation.

Hassi drew his sword. "Let's kill him! He's a spy! I'm after blood." The stranger's squeaky voice protested, "Well, don't look at me. I'm anemic!"

The menacing face of Hassi terrorized him.

"You can't kill me, I'm an American! I'm no spy, I'm only the society correspondent for the Paris Herald. I didn't even mean to come here. Early this morning I went out horseback riding with my

friend, Pierre Birabeau. Later he gave me the slip and I thought he had headed this way."

At this point the Red Shadow came forward. He spoke in the Riff's native tongue. What he said meant that the prisoner should be released.

CHAPTER III.

Like most girls who have read story books and believed in them Margot Bonvalet was beginning to find life a bit disillusioning when she came to actually living it. She had arrived in Fex expecting to find there all the high romance of the sentimental novel. Her Paul would be a dashing hero in his uniform of the Foreign Legion. He would sweep her into his arms and carry her away on horseback, far out into the desert—and there would be a wild courtship under the Moroccan moon. But instead, she had made the disappointing discovery that Paul was first of all the soldier and only the lover when there was nothing else to interest him. His devotion to military duty made him more of a machine than a dashing knight.

He left her alone a good share of the time and she found it necessary to rely on inconsequential flirtations with the officers or tedious conversations with General Birabeau's son, Pierre, who worshipped her at a respectful distance but who scarcely qualified as a suitor since Margot regarded him as a mollycoddle. There were no other women at the garrison except Susan, the secretary and sweetheart of Bennie Kid, the Paris Herald reporter, and Azuri, a dark-skinned native girl who was not officially one of the household but who lurked about at all hours when she might glimpse Captain Fontaine.

Margot and Susan were chatting together when Bennie returned from his desert adventure. Susan felt gratefully into his arms, then babbled him with solicited pats and anxious questions. He waved her aside. A man could not bother himself with love when he had just risked his life among the dreaded Riffs themselves.

"Bennie did you see the Red Shadow?" Susan queried.

"Yes—and what a tough guy." Bennie replied, "Why he came riding into camp on a tiger, using a rattlesnake for a whip. And because he was hungry he ordered a live cow. When it was brought in he took out his sword and cut off a slice for himself."

Susan's eyes were popping. "Raw, Bennie?"

"It was the rawest thing I ever saw done to a cow!" he assured her.

Just then Pierre Birabeau appeared in the doorway. Margot hadn't missed him for Pierre always took a nap in the afternoon. To Margot he was a nice boy though somewhat of a bore. Would she not have been astonished could she have watched him a minute before when he had hastily stuffed a scarlet burr-rose into his bedroom? Yet he had not been cautious enough, for Azuri, crouched behind a chair like some little animal, had seen him.

Pierre ventured timidly toward Margot, and handed her a small bouquet. "See Margot, I've got some lovely wild flowers for you!"

The girl looked at him despairingly.

"Wild flowers! Oh Pierre, why don't you go out and fight the Red Shadow? If only you would do one thing to make me proud of you!"

Suddenly she caught sight of Captain Fontaine coming across the court yard. When he entered she greeted him ardently.

"What luck, Paul?"

"Great luck, Margot! I nearly

caught the Red Shadow. I found his secret hiding place and I've covered it with a concealed machine gun. Next time he goes there we'll mow him down."

"Bravo!" shouted General Birabeau who had arrived in time to hear Fontaine's confident boast.

"Oh, that's great!" put in Pierre. "But father, wouldn't it be funny if he didn't go there again?"

The General did not bother to answer his son and Pierre was well accustomed to snubs, resumed silence. His father's interest was primarily in Paul. He had been watching the progress of his romance with Margot and had noted the soldier's neglect and the girl's dissatisfaction. For the sake of his friendship for Margot's father, General Birabeau sincerely desired her happiness. He saw a way of promoting it.

"A boat of the French Line stops here tonight, Paul," he told him. "It's just finishing a Mediterranean cruise. You and Margot might take the Bridal Suite and as Governor of the Post, I can marry you."

Margot interrupted. "As the bride, don't you think I deserve to be consulted?"

Paul laughed. "You could hardly be married in that riding habit, Margot!"

Margot tossed her head. "I don't suppose you thought that we two might go riding in the desert together?"

"You see, Paul," General Birabeau told him good humoredly, "Margot hoped you'd pick her up on a horse and carry her across the hot desert sands."

Perhaps Paul's sense of the romantic was partially awakened. At any rate the plan for a hasty marriage appealed to him and he begged General Birabeau to make out his passport. Then he turned to the girl.

"Margot, I'll be back for my answer in five minutes. If it's no, I'll make you my enemy!"

"There, Margot, there's romance for you!" remarked the General.

As Paul crossed the inner court, Azuri sneaked up beside him. He turned on her with a furious contempt.

"Azuri, you can't follow me like this."

She rubbed her sensuous body against him. "Lover, come with me tonight to the hills—and tomorrow morning in your arms, I will whisper to you the name of the Red Shadow!"

"I don't believe you. You don't know."

Azuri twined her arms about his neck and placed her warm dark cheek next to his. "Paul, I cannot give you up to this French woman!"

Fontaine wrenched himself free and taking the girl by the shoulders he threw her roughly to the ground. Her dark eyes flashed jealously as she rose slowly, showing her gleaming white teeth, and sneering.

"Azuri—that name means tiger claw. When she loves she loves for always and when she hates—she hates!"

And Azuri crept out toward the desert, leaving this half-muttered threat ringing in Fontaine's ear.

(To Be Continued.)

Radio Difficult To

Transmit In Forest

Mysterious Barriers Exist Largely When Trees Are Sappy

When radio messages are received with comparative ease in the Arctic, and the long and short waves of electrically energized ether are received in mines deep underground, it is starting to find that difficulty is encountered in establishing radio communication in the forest. There are mysterious barriers that exist in the forest, the transmission of radio energy being affected to an unknown extent by what is called the absorption of trees. This seems to occur in spring, summer, and fall when the trees are sappy. With all the advances made by radio, it is still necessary for the pretectors of our forests to use the telegraph and telephone.

Might Try It Once

Opening a family Bible, a Minneapolis man found a \$100 note seventy-five years old, and still worth its face value. This encouraged, I imagine a lot of people will open their family Bibles at least once every seventy-five years, just on a chance.

To Explore Baffin Land

Donald MacMillan To Head Expedition To Northern Lands

Donald B. MacMillan, explorer in an address has briefly outlined plans for his projected expedition into the Arctic this summer.

The schooner Bowdoin will leave from Wiscasset Harbor, June 22. The summer will be devoted to exploration of unknown spots in Labrador and Baffin Land. He expects to return in September.

The party will work among the Nascope Indians, whose hostility to white men was overcome on a previous expedition, when they were assisted through a period of famine.

Plans include a study of the great ice cap in Baffin Land, of which little is known, Commander MacMillan said.

A Strange Cargo

One of the strangest cargoes ever to be shipped on an aeroplane arrived at Croydon airport recently.

When the large air freighter pulled up at the hangars, the load inside proved to be twelve monkeys, and a baby bear. They were shipped to a private animal dealer in London, from the East Indies, the distance from Amsterdam to Croydon being covered in the air freighter.

Love is blind. That's why a man in love is unable to distinguish between an angel and a goose.

MUSHROOMS PAY

Earn upwards of \$25 weekly growing mushrooms for us in cellar or other warm space. Deliver to our nearest branch. Light pleasant work for either sex. Illustrated booklet sent anywhere, for stamp.

DOMINION MUSHROOM CO., TORONTO

Ideal--Wherever alterations are required

IN many a fine, old-fashioned farm house there are rooms much larger than people today consider necessary. This available space can be partitioned off into extra rooms with very little work and at surprisingly small cost by the use of Gyproc Fireproof Wallboard. And the Gyproc walls and ceilings of the new rooms will match the older walls—no matter how solid they are—for seasoned rigidity, good looks and permanence.

Gyproc is the perfect building material for all modern farm construction—for homes, barns, poultry houses, granaries and garages. It is pure rock—cannot warp, shrink or burn. With the use of joint filler and tape its sections meet in a tight, flush joint that insures a flat, smooth surface and takes any decoration.

Broad, ceiling-high sections of Gyproc can be nailed directly to joists and girders—no construction with a minimum of labor.

CANADA GYPROC AND ALABASTINE, LIMITED

Head Office: Paris, Canada

Branches: Montreal, Toronto, Windsor, Winnipeg, Vancouver

Beautiful decorative effects can be obtained by applying Alabastine, paint, paper or paste right over Gyproc walls and ceilings.

GYPROC

Fireproof Wallboard

WHAT WILL IT DO?

Women are saying: "Pinkham's Compound keeps me fit to do my work." "I was nervous and all run down. Now I eat better and sleep better." "It helped my thirteen year old daughter." "I took it before and after my baby was born." "—I am gaining every day!"

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1788

Stony Plain and District.

IT PAYS TO PAY CASH.

Mr J H Lory left Monday for Victoria, B.C.

Mr Jacob Miller, who had been in Stony for a few days, left on Monday for his home at Wembley.

Mr Jac Mayer was a business visitor to Mayerthorpe this week.

Messrs C Anderson and C Lory motored to Vegreville on Saturday.

George Miesner, the well-known farmer, announces he is going into the trucking business at Rochester, Alta.

Mr W J Wray, formerly at the local bank but now at the Wahstena branch, motored up to Stony on Sunday.

The train service through Stony was interrupted last Friday owing to a defect in the bridge near Wabamun, the regular trains being sent around by Sanguito. The mail service was disorganised, with no incoming or outgoing mails till Monday noon, when a special to Wabamun brought out a consignment of mail.

A very enjoyable dance was held Friday evening at the Heatherdown Community hall with a good attendance present. Barth's Orchestra supplied the music.

A 3 act comedy "Too Much Mother-in-Law" will be given at Holborn Hall Friday, June 28, by the Warden Doo-Dads. A dance follows.

Sporting Notes.

A good ball game was played on local grounds on the 21 inst., between Married and Single Men. Final score—7 runs to 3 in favor of Single men.

Stony's ball team is billed to play a game at Duffield on the 9th.

Church Services

At the Lutheran service in English, on Sunday evening, Pastor Ostermao took his text from Luke 16, commencing at the 19th verse, and delivered a fine address on the subject of the Rich Man and Lazarus. The next service in English will be the evening of Sunday, June 16.

Grace English Lutheran Church, Edmonton (Rev H.J. Boettcher, pastor) held its Missionfest on Sunday last. Rev A Apelt preached in the morning. Rev B Behrends conducted the evening service. Stony Plain Lutherans were well represented.

Service at United church Sunday evening at 7:30; Rev G A Sauder.

Holborn Happenings.

Mrs R Larson on Monday night received the sad news of the death of her father, Mr O M Brenney, at Rockford, N D. Mrs Larson left immediately for Rockford, accompanied by her sister, Miss Orvina Brenney, who had been here on a visit.

Mr and Mrs A Anderson and Mr and Mrs M L Larson are expected home today from Winnipeg.

Marcelling Done.

Factor in Kelly's Store, Main St., Stony Plain.

MISS OLIVE JAMESON.

Calendar.

JUNE—
6—Town Council meets.
17—Voting on Electric Lighting Bylaw.
28—Three act Comedy by Warden Doo-Dads.
JULY 1—Sports Day at Stony Plain.

Card of Thanks.

Mr and Mrs A P Anderson desire to thank their many friends and neighbors for the kindness and sympathy shown them during their recent sad bereavement; also for the many beautiful floral tributes.

Holborn Picnic Prizewinners

First ball game—Stony Plain won.
Boys under 10—Floyd Willie 1, R Williams 2.
Married Ladies over 35—Mrs R Larson 1, Mrs T Scott 2.
Ladies under 35—Miss Vera E Thuerber 1, Mrs D Sutherland 2.
Ladies Wood Chopping—Mrs H McDonald 1, Mrs Jameson 2.
Nail Driving—Mrs H McKinnon 1, Mrs Roy Miesner.
Needle Race—Mrs D Sutherland 1, Miss R Siebert.
Egg Spool—Mrs C A Kimmerly 1, Mrs L Kimmerly.
High Jump—L Kimmerly.
Long Jump—C Kimmerly.
Men over 50—W C Williams 1, H J Woodley 2, G Herbert 3.

Men tug-of-war—Won by the visitors.
Ladies tug-of-war—Won by the visitors.

Shooting Gallery—L Wudel 1, L Woodley 2.
Guessing Contest F Meads.
Best Bread—Mrs T Scott 1, Mrs D L Davidson 2.
Best Sweet Buns—Mrs M L Larson 1, Mrs McDonald 2.
Best Cake—Mrs A Anderson 1, Mrs L M Larson 2.
Best Pie—Mrs R Miesner 1, Mrs L M Larson.

Boys 10 to 14—C Woodley 1, W Larson 2.
Free for all girls—M Everington 1, R Liebert 2.
Girls 10 to 14—V Barth 1, V Woodley 2.
Horse Race—J Walton 1, Ed Badke 2, Geo Liebert 3.
Old Ford Race—H Larson.
New Ford Race—Geo Barth.
Free-for-all Car Race—G Barth 1, H Williams 2.

Golden Spike

Seeding in this district is practically all finished, with the exception of those farmers sowing for green feed.

Golden Spike Prairie Fire Brigade have organised, secured counsel, and intend entering civil action in court, to recover damages for the losses sustained last fall, thru fires. This action is consequent to the now famous case tried before Magistrate Williams, under the Prairie Fires Ordinance.

It is reported that notice of a writ of certiorari has been served on Magistrate Williams in connection with the above case.

M Schellenberger has just finished boring two wells in this district, one for J H Bar on at 77 feet, and one for 78 feet for Hy Bar on.

NOTICE

Having dissolved partnership in the Blacksmithing business in Stony Plain with my partner, Rudolf Breikreutz, notice is hereby given that I will not be responsible for any debts incurred after this date, June 3, 1927.
(Signed) JOHN B. MILLER.

Spruce Grove News

Old Man Struve, on Friday last, celebrated the 77th anniversary of his natal day, and received the congratulations of his many friends and neighbors. This worthy gentleman is one of the old time settlers of the district.

The School Board held a meeting in the Schoolhouse on Friday. The matter of taking land from this district to form the new Michel S D. was under consideration.

A Community League meeting was held Monday evening, with a fair attendance of members.

Martin's orchestra gave another of their popular dances in the Highway Pavilion last evening, with the usual good crowd in attendance.

War on Gophers, Crows, etc.

Cash prizes ranging from \$1 to \$200 will be paid by Dept. of Agriculture in various competitions in the campaign for the destruction of gophers, crows and magpies during the present season. Details of the various competitions which have as their object the protection of farm crops and insectivorous and game birds can be secured by addressing the Game Commissioner, Edmonton.

Ford

Do You Know?—

That no automobile except Ford selling for less than \$1500.00 has triplex shatterproof glass windshield as standard equipment?
That the new Ford Car has 25 ball and roller bearings in the chassis?
That when the new Ford is travelling at 50 miles per hour, the revolutions per minute of the motor is only 2077?
That the new Ford stands out supreme in its field in mechanical design, specifications, equipment, quality, and prediscin workmanship?
"BUY YOUR FORD CAR NOW"

Stony Plain Motors.

ENDERS & BARON, Stony Plain.

'Too Much Mother-in-Law'

A Three Act Comedy, Presented by the Warden Doo-Dads at HOLBORN HALL, on

FRIDAY, JUNE 28th, at 8.15 P.M.

Admission—Adults 25c. Children 15c.

Dance Afterwards. Gentlemen 75c.

Rainbow Toddle Orchestra at Dance.

The World's Largest Sound System

The artist's conception of the world's largest and most complete sound system installed in the Royal York Hotel, Toronto.
1. Royal York Hotel, Toronto.
2. Amplifier, master and control.
3. Two highly sensitive and ultra selective radio receiving sets with automatic volume control in the basement showing standard and the great nineteen foot sound projector horn used in the Banquet Hall.

The Royal York, the new Canadian Pacific Hotel in Toronto and the largest modern descendant of the Village Inn beneath the Union Jack, is being equipped with the most extensive centralized radio and public address system installation ever attempted in any part of the world. The equipment was designed and manufactured in the Radio and Telephone Laboratories of the Northern Electric Company, in Montreal and is now being installed in the hotel. When the Royal York is declared officially opened on June 15th, this year in each of its twelve hundred bed rooms will be a radio outlet on the wall to which headphones may be attached, so that guests may enjoy one or two programs originating from anyone of five different sources. The Vice-Royal Suite will be equipped with

especially designed loudspeakers having the most pleasing tone quality and an artistic appearance in keeping with the decoration of the suite. In the main dining room, ball room, banquet hall, convention hall, roof garden, and the private dining rooms will be located groups of both microphones and horns permitting either the picking up of programs from these locations and the "broadcasting" of them to all parts of the house, or the distribution of a program to any one of these points from any other locality or via radio from outside. Two highly sensitive and ultra selective radio receiving sets will be located in the control room on the fourth floor. There also will be found imposing "mixer" and control panels and five steel

framed amplifier panels capable of boosting up the strength of the received signals one million, million (1,000,000,000,000) times—powerful enough to deliver good volume at all points in the building—and yet may be tuned down to the softest tones desired for the most restful entertainment in the private rooms. A five horse-power motor generator set is used to convert the 55 cycles current supply into the 60 cycle power source necessary to operate these various systems. These function through some twelve hundred and fifty outlets connected together by a network of nearly ten miles of high quality rubber insulated and cotton covered, tinned, copper wire, supplying musical entertainment to every corner of this modern hotel.
